Experience

Product Designer

Heidi · London, UK · Sep 26 - Present

AI care partner scale-up for clinicians, one of 7 product designers and the UK design lead, working with 3 engineers and a product manager.

Founding Product Designer

Scarlet · London, UK · Mar 25 - Aug 26

AI medical device certification startup, one of two founding product designers leading 0→1 from Series A to B, working with 11 engineers and a product manager

- Led end-to-end product design from 0→1 for a certification platform for AI medical devices, growing usage from 50 to 500 active users across customer & assessor tools.
- Drove a more inclusive build culture by enabling non-engineers to set up local environments, create coded prototypes, and contribute PRs to launch new features

Product Designer

Bank of England · London, UK · Jan 24 - Feb 25

Bank of England's first in-house design team, part of Transforming Data Collection, a strategic programme run jointly with the FCA

- Redesigned how the Bank collects financial data - mapping complex expert workflows and ambiguous policy requirements into tangible product concepts
- Collaborated across stakeholders in legal, data, and policy to translate complex regulatory requirements into product experiences

Junior Product Designer

McKinsey & Company · Stockholm, Sweden · Aug 22 - Dec 23

- Collaborated directly with consulting teams across multiple client engagements, translating complex business strategy and data requirements into product design decisions
- Designed and launched a financial health platform in Norway, owning end-to-end UX from concept to shipped iOS product, with visually rich, information-dense interfaces that helped users navigate their financial health

UX Design Intern

Philips · Amsterdam, Netherlands · Mar - Aug 21

Visual Design Intern

Amorepacific · Seoul, Korea · Nov 20 - Feb 21
